EDUCATION

Instituto Tecnológico de las Américas (ITLA) <i>Associate Degree in Software Development, Backend focus</i>	2023 – Present
INFOTEP <i>Mechatronics Technician</i>	2022 – 2023
Centro de Tecnología Universal (CENTU) <i>IT Technician</i>	2018 – 2019

EXPERIENCE

Kan-M Repostería y Catering (client project) <i>Technical Lead & Architect</i>	Mar 2026 – Present
- Designed and led a WhatsApp automation system: FastAPI backend, Next.js web panel and Android app, across three repositories integrated with PostgreSQL. - Built the customer service chatbot (Gemini API, WhatsApp Cloud API) that handles FAQs, delivery and quotes, and escalates cases that need judgment to a person. - Built the public website and admin panel (Next.js, TypeScript, Prisma, Firebase), live in production: catalog with cart, quotes, order tracking and sales reports. - Led requirements, functional testing and the pre-deployment audit, reaching 100% test case coverage before production.	
National Debt Relief / Broadway Support Services <i>Lead Routing Analyst</i>	May 2025 – Jul 2026 Feb 2026 – Jul 2026
- Routed leads through Salesforce and AWS in an operation of 500+ agents and 20,000+ leads per day, adjusting distribution in real time based on performance. - Aligned routing strategy with Sales and Revenue leadership to prioritize business goals.	
Real-Time Analyst (Workforce Management)	Oct 2025 – Feb 2026
- Built an automated SLA report in Excel (Power Query, Power Pivot) consolidating 10+ departments; adopted company-wide, it saves 13+ hours per week. - Kept SLA above 90% in every department by monitoring adherence and occupancy across 5–6 campaigns in Aspect WFM. - Handled ~60 operational tickets per day and sent daily KPI reports to the departments I supported.	
Sales Account Executive	May 2025 – Oct 2025
Owned every sale end to end for U.S. customers (discovery, objections, closing, enrollment), at or above the team average.	
Alorica • Verizon Account <i>Support Coach</i>	Jan 2023 – May 2025
- Provided technical support and coaching in English to front-line agents serving Verizon customers in the U.S. - Built a Slack automation sending individual metrics to each agent, and automated Google Sheets dashboards for 15 agents.	

PROJECTS

Finance Bot <i>Python, FastAPI, Groq (Llama 3.3), SQLAlchemy, pytest</i>	github.com/4n1mah/finance-bot
WhatsApp bot that logs expenses in natural language, answers queries by period or category and tracks fixed payments; deployed to production on Railway.	
Interactive portfolio <i>Next.js, TypeScript, PixiJS, GSAP, Zustand</i>	github.com/4n1mah/portfolio-CV
Bilingual isometric plaza with booths, animated characters walking around it and an accessible simple version; deployed on Vercel.
