Sadiel Rojas Padilla

SOFTWARE DEVELOPER · BACKEND · DOMINICAN REPUBLIC

sadielrojas.vercel.app · sadielrojas08@gmail.com · linkedin.com/in/sadielrojaspadilla · github.com/4n1mah · WhatsApp

PROFILE

Backend developer (Python · FastAPI · PostgreSQL) building software that solves real business problems. Led the WhatsApp bot and web platform for Kan-M, a bakery in Santo Domingo, in production and used daily. Background in Sales Ops and Workforce Analytics: every build starts from the business process, not the code. Advanced English; open to backend roles and freelance projects.

EXPERIENCE

Data Vimenca — Sep 2026 – Present

Real-Time Analyst (Workforce Management)

- Monitor the operation live and coordinate adjustments when the day's metrics drift off target.
- Code agent activities and exceptions in the WFM system so schedules reflect the real operation.

Kan-M Repostería y Catering (client project) — Mar 2026 – Present

Technical Lead & Architect

- Designed and led the whole platform: FastAPI backend, Next.js panel and Android app over PostgreSQL.
- Built the support chatbot (Gemini, WhatsApp Cloud API): handles orders and quotes, escalates the rest.
- Built the public site and admin panel (Next.js, Prisma, Firebase): catalog, orders and sales reports.
- Led requirements, functional testing and the pre-deployment audit: 100% test case coverage.

National Debt Relief / Broadway Support Services — May 2025 – Jul 2026

Lead Routing Analyst — Feb 2026 – Jul 2026

- Routed 20,000+ leads a day through Salesforce and AWS for an operation of 500+ agents.

Real-Time Analyst (Workforce Management) — Oct 2025 – Feb 2026

- Automated the SLA report for 10+ departments (Power Query, Power Pivot): saves 13+ hours a week.
- Kept SLA above 90% in every department, monitoring adherence and occupancy in Aspect WFM.
- Handled ~60 operational tickets per day and sent daily KPI reports to the departments I supported.

Sales Account Executive — May 2025 – Oct 2025

- Owned every sale end to end for U.S. customers, at or above the team average.

Alorica · Verizon Account — Jan 2023 – May 2025

Support Coach

- Supported and coached front-line agents in English for Verizon customers in the U.S.
- Automated the Slack delivery of individual metrics and the Google Sheets dashboards for 15 agents.

PROJECTS

Finance Bot · Python, FastAPI, Groq (Llama 3.3), SQLAlchemy, pytest — github.com/4n1mah/finance-bot

- WhatsApp bot that logs expenses in natural language and tracks fixed payments; live on Railway.

Interactive portfolio · Next.js, TypeScript, PixiJS, GSAP, Zustand — github.com/4n1mah/portfolio-CV

- Bilingual isometric plaza with booths, animated characters and an accessible simple version; on Vercel.
